### ABOUT ME

Hello, I am Justin, and I am lucky, and I am ready!

Why am I lucky? Well, I am lucky that I was given the opportunity to work with countless carriers to learn how they operate, with the objective to recommend and introduce changes that make a true impact on the effectiveness and productivity of the business.

Why am I excited about this? For the past 10 years I have been developing my skills with a carrier that I helped grow from a 400-driver operation to 625 drivers while also helping them with other strategy and process improvements. I would love to bring what I learned - combining both my carrier and industry knowledge - to accomplish my client's goals, from growth to process improvements, from operational efficiencies to retention strategies.
